“ *My condolences to the family.. I am from Corpus Chrisit, Texas and worked with her at CCMH in Oklahoma and assisted her in the clinic, we shared a lot of memories from back home. It was nice to know someone who could talk to about home She enjoyed all the fresh fruits and vegetables I brought her from back home. She especially enjoyed the home made tacos I made in the morning which reminded her of home.. chorizo and egg and made jokes about how Mexicans loved there Chihuahuas (my dog Zeus). She will truly be missed and was a blessing to everyone she came in contact. I will continue to keep the family in my prayers.*

“ *Dr Medina and family...our hearts are hurting with yours at this time. We have been fervently praying for all of you. I remember when Analyssa attended a couple of our women's meetings years ago. She was so hungry to hear the Word of God. She received the Lord at the first meeting...whether for the first time or as a rededication...I don't know. I remember her kindness and beautiful heart that emanated from her. I know her life impacted so many in a profound way. Words cannot suffice what we are feeling for you. But we pray that the God of all comfort give you comfort at this time. We love you and are here for you and praying daily. ❤️*

“ Our deepest sympathies to the Medina and Orjuela families during this difficult time. We had the pleasure of working with Analyssa as her faculty during her residency here in San Antonio. We admired her so much. She was a wonderful person- so poised, elegant, and humble. She was an amazing surgeon and doctor to all- always meticulous and controlled. She loved her family, and always kept her family as her first priority. What an amazing daughter, sister, and wife she must have been to you all....We are so honored to have known her -- we will remember her forever. We are keeping you all in our thoughts

Sincerely,

Drs. Sarah Page-Ramsey and Patrick Ramsey and family

“ *I had the pleasure and honor of working with Dr Orjuela during residency. She was "my second year" when I was a chief because we did one of the most challenging rotations together (Gyn Oncology). She was kind, intelligent, talented surgeon and had this amazing quiet reserve - which just seemed to calm everyone around her (both patients and fellow residents). Even in the most stressful situations, I never saw her get angry or flustered. She cared deeply for her family and I knew that they were important too her - she spent all of her very little free time in residency with them. We joked that she NEVER came to any residency functions (she would rather spend it with her family and husband - which of course, cant blame her for!). She was a beautiful person inside and out.*

I am lucky to have known her, I am lucky to have worked with her and I know she truly touched and changed those around her - students, residents, faculty, colleagues and her patients.
