“ *Dr. Wiebelt was first my mentor and always a friend. He and Dr. Jerald Parker at Oklahoma State University supervised my work on my master's degree in mechanical engineering. What a fine gentlemen and I am blessed to have known him and worked for him. He was especially forgiving when I 'goofed off' my first semester as a Master's student and had to confess that I spent too much time chasing girls and working on old cars. Maybe he got a chuckle out of it.*

John Wiebelt and his wife Gladys (Ruth) would invite me into their home to share a laugh and visit any time I stopped by. We always enjoyed talking about family, hobbies, pets, and the next road trip. I know that, after retirement, John and Gladys moved to Alamo to escape the Oklahoma winters. My wife and I always enjoyed their Christmas cards.

John and gentlemen professors like him were my family at OSU. Gladys (Ruth), please know that you are in my prayers.
